I N this preparation all the restorative properties of the root are concentrated in their utmost strength and efficacy; but while Sarsaparilla Root forms an important part of it combination it is, a the same time, compounded with other vegetable remedies of great power, and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach the circulation and the bowels; and thus three processes, which are ordinarily the result of three diff. erent kinds of medicine, are carried on at the same time, through the instrumentality of this one reme. dial agent which gently stimulates, while it disinfects and expels from the stomach and bowels all that is irritating, and at the same time restores their vigor and tone. Many other preparations imitate it in bearing the name of Sarsaparilla, and in that their resemblance ends, being often prepared from worthless and inest roots, and of course possess no healing or curative properties, and patients in making choice of which they will use should take no other, but that one entitled to their confidence from the long list of of cures it has effected and living witnesses whose testimonials and residence have been published, and who are still bearing daily testimony to its worth.

Patterson, N. Y. 20th, 1861. Mesers. A. B. & D. Sands : Gentlemen .- Having witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following statement in regard to my son. In the spring of 1848 he took a severe cold, and after eight formed on the leg and foot at one time. We had five different Physicians, but none relieved him much; that he was unable to leave his bed suffering the most excraciating pain. During this time the bone had become so much affected that piece after peice came out, of which he has now more than twenty-five preserved in a bottle, varying from one half to one and w half inches in length. We had given up all hopes of his recovery, but at this time we were induced to try your Sarsaparille, and with its use his health and appetite began immediately to improve, and so rapid was the change that less than a dozen bottles, effected a perfect cure,

Messas Sanns .- Having suffered many years wi his friends and the public that he has removed a disease of my throat, affecting the larynx, during joining the store occupied by J. Makee Esq., where physicians in Europe and the United States, without tannia Metal Tea and Table Spoons, Soup Tureens, do. do. Lasting Gaiters, do. do. White Shirts, linen Allston," "Falcon" and steamer disease making fearful progress: caustic applications were used, and whatever else was thought most efficient for producing a cure; but I am confident the deplorable situation I was in, the laryngitis being accompanied with phthisis and great difficulty in breath. ing, would soon have terminated my life, had I not obtained relief through the medium of your invaluable Sarsaparilla. I must say gentlemen, when I commenced using the Sarsaparilla I did not place much confidence in its virtues; and this will not surprise you, when you are informed I had tried more than fifty different remedies during the past four years, without any success, but after taking your Sarsaparilla a few weeks, I was obliged at last to yield to evidence. This tnarvellous specific has not only relieved but cured me; and I therefore think it my duty, gentleman, for the benefit of suffering humanity, to give you this attestation of my cure

and every day the field of its usefulness is extended

It is approved, and highly recommended by Physicians, admitted to be the most powerful and searching preparation from the root, that has ever been loyed in medical practice. Its operation extends to the remotest parts of the system, and consists in removing diseased action in the absorbing and secreting organs. In man, Nature seldom effects, unassisted, the cure of my virulent disease, but requires the aid of a stimulant, alterative, or antiseptic medicine. In diseases of the skin and flesh, a combination of these three classes of medicinal agents is highly desirable. All these properties are combined in this preparation; and instead of operating successively upon the system, as they must necessarily Do fresh cheese in tins, do clams and lobsters, do when taken separately, they operate simultaneous-Do preserved meats, comprising the following assortment in each case—boiled beef, roast do, this form. Its tonic preserve strength assortment in each case—boiled beef, roast do, this form. Its tonic property strengthens the digestion, and improves the appetite.-Its alterative tendency carries off the accumulations of morbid matter,-and its antiseptic influence neutralizes the virus, by which the disease is fostered. 23-8 m

THE GREAT CHINESE REMEDY! DR CONINE'S Syrup of GINSENG AND MALVA.—This medicine depends more upon its own virtue and actual merit than any other ever before offered to the public. In China, it is the potent and effectual remedy for Affections of the Lungs: but what will particularly attract attention, is its astonishing Dissolvent power, by which it at once removes all Phlegm, or extraneous matter, from the Throat, Stomach or Lungs. It is therefore Anti-Expectorant, and from attestations of trial here, it is now offered as Nature's kindest remedy for the removal of Consumption, Whooping Cough, and all Coughs, by precipitating the phlegm, instead

of creating irritation by expectoration. It is aromatic, and increases the general warmth. possessing the exhiliarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India, beyond the Ganges, while as a Dyspeptic Remedy and Appetiser, it has probably so equal in the whole vegetable kingdom.
